

Five items showed increases in average price. After rising 9 cents in the first quarter, cheddar cheese rose 38 cents to \$3.84 per pound. Bacon rose 14 cents, to \$3.14 per pound. Bread increased 5 cents, to \$1.41 per 20-oz. loaf. Apples increased 2 cents, to \$1.24 per pound. Sirloin tip roast rose 1 cent, to \$3.53 per pound.

Despite steady increases in grocery store average prices over time, the share of the average food dollar received by America's farm and ranch families has actually dropped.

"This reflects a long-standing trend," said Francl. "Thirty years ago farmers received about one-third of consumer retail food expenditures."

According to the most recent Agriculture Department statistics, America's farmers and ranchers receive just 19 cents out of every dollar spent for food. Using that across-the-board percentage, the farmer's share of this quarter's marketbasket average total would be about \$7.38.

AFBF, the nation's largest general farm organization, conducts its informal quarterly marketbasket survey as a tool to reflect retail food price trends. A total of 86 volunteer shoppers in 25 states participated in this latest survey, conducted in late May and early June.

FB Bank offers tips for buying a home

Prime home-buying season is upon us. If you have joined this summer's house-hunters, you may want to take a moment to read this article. Here are some items you may want to consider as you search for your next dream home.

- Educate yourself about the home-buying process
- Check your credit reports
- Figure out how much house you can afford
- Find mortgage and real estate professionals
- Narrow your choice of neighborhoods

You can learn about the home-buying process online through Fannie Mae at fanniemae.com, local community courses, debt-counseling companies, or from the plethora of books and articles available.

Next, it's time to order your credit reports. You can request them directly from the three primary credit reporting agencies: TransUnion 800-888-4213, Equifax 800-685-1111 and Experian 888-397-3742. Each agency can provide you with specific instructions on how to obtain your credit report.

Now take a look at your budget and establish how much you want to pay for the house. It's an important step, because you are in the best position to determine this amount. When calculating, be sure to consider closing costs, home insurance, and property taxes.

Homebuyers might find that the financing process goes more smoothly with the help of an expert. A professional mortgage lender can review your credit and pre-approve you as a certified cash buyer, so you'll know your price range when you talk to the real estate agent.

Farm Bureau Bank has an experienced team of mortgage professionals to help you finance your dream home. Call 1-800-492-3276 or visit www.farmbureaubank.com for more information.

New device protects anhydrous nurse tanks

To help farmers and fertilizer suppliers prevent the theft of anhydrous ammonia from nurse storage tanks, Smith Flow Control has developed an innovative, proven locking device.

Called the NH₃ Amo-Lock, it is designed to fit the tank's withdrawal valve and provides a simple, fail-safe method of securing the contents in a field, at a fertilizer dealer or en-route.

Theft of anhydrous ammonia from farms has grown to epidemic proportions in recent years. The perpetrators are illegal drug makers who use it to manufacture methamphetamine, also known as meth, speed or ice. Drug lab scouts roam the countryside looking for unattended tanks that they can break into day or night.

Once installed, the NH₃ Amo-Lock becomes integral with the valve and is easy to operate one-handed, even when wearing gloves. The operating key (valve handwheel) can only be removed when the valve is fully closed – a safe condition. In addition, because operation does not involve climbing up onto the tank to fit a cover or padlock, there is no risk of injury.

For more information on how the NH₃ Amo-Lock can help prevent the theft of anhydrous ammonia (and other chemicals) please visit either the website at www.ammo-lock.com, send an e-mail to sales@ammo-lock.com, or call Smith Flow Control at 859-578-2395.

ODA changes requirements for pesticide applicators

The Oklahoma Department of Agriculture has changed some record keeping requirements for both commercial and non-commercial applicators, according to Dr. Jim Criswell, Oklahoma State University pesticide coordinator.

ODA deleted the requirement for commercial and non-commercial applicators of recording the EPA Establishment Number and any batch or lot number.

It also changed the requirement to keep a copy of the pesticide label as it appears on the container to keeping "a copy of the pesticide product label or labeling that is attached to the container or included in the shipping case."

Criswell said this requires the applicator to include all the labeling information that comes with a product.

ODA also included the requirement for Structural Pest control applicators to keep copies of any wood infestation report issued.

For dealers of restricted use pesticides, Criswell said they are not required to keep the EPA Establishment Number or any lot or batch numbers of restricted use products sold.

ODA changed the requirement in the Fumigation Minimum Standard for placarding for the placard to be "a minimum size of 8 1/2 inches by 11 inches and color to be conspicuous and bearing the word poison."

It deleted the requirement for the words DANGER and POISON GAS to be on the placard and in two-inch letters. Many labels still require these words to be on the placard.

"These changes went into affect April 26," said Criswell.

Members' daughter is Oklahoma State's top female student-athlete

Luann Ulrich was named Oklahoma State's female student-athlete of the year for her accomplishments in athletics and academics. Ulrich received the award at the recent academic awards banquet.

Ulrich is planning on graduating this fall with a degree in Animal Science with a 4.0 grade point average.

Peace of Mind

A home with a monitored security system is 600 percent less likely to be burglarized than a non-protected home.

She is the daughter of Major County Farm Bureau Vice President Reuben Ulrich. Her mother, Lucy, serves on the Major County Women's Committee.

Ulrich has achieved President's and Big XII Honor Roll seven times. She has won the OSU Academic Achievement Award four times. She has also qualified for the 2004 IHSA Senior Athletic Academic Achievement Award.

Ulrich also has contributed countless hours in her four years at OSU to community service. She has volunteered for Special Olympics, UNICEF, American Red Cross, Harvest II Food Drive and March of Dimes.

The Fairview native also is active in student organizations on campus including Student-Athlete Advisory Committee, OSU Horseman's Association, Ag Communication of Tomorrow and Alpha Zeta Honor Fraternity.

Ulrich's success has not been limited to the classroom. In 2002 she won an IHSA National Championship in Intermediate Western. She was the 2002 Western team MVP and won zone championships in both 2002 and 2003.

Former Oklahoma Farm Bureau Director dies

Services for former Oklahoma Farm Bureau Director Carl Owens were held July 6 at the Wilson Little Funeral Home in Purcell.

Owens, a Maysville farmer-rancher was born in Lexington Jan. 28, 1918, and served as district eight state director from September 1975 until retiring in November 1988.

During his service on the state board, he operated a farm and ranch southwest of Purcell, where he ran cattle and grew wheat and alfalfa.

Owens also served on his county Farm Bureau board of directors and was board president.

He represented Oklahoma Farm Bureau on the American Farm Bureau Federation Beef Advisory Committee. He also was a member of the Oklahoma Cattlemen's Association, the American Legion, the Masonic Lodge and Eastern Star.

His wife, Mary Ann, preceded him in death.

Country Kitchen

MEAT LOAF IN A LOAF (Serves 8)

- 1 1/2 pounds Certified Angus Beef® lean ground chuck
- 1 (1-pound) loaf French or Italian bread
- 1 (5-ounce) can evaporated skimmed milk
- 1 egg, slightly beaten
- 1 tablespoon Worcestershire sauce
- 2/3 cup chopped onion
- 1/2 cup chopped green bell pepper
- 1 teaspoon salt
- 1/2 teaspoon black pepper

PHOTO COURTESY OF CERTIFIED ANGUS BEEF LLC

1. Preheat oven to 350° F.
2. Cut a 1/2-inch slice off the top of bread loaf; set aside. Hollow out the loaf leaving about a 1-inch shell. Tear bread removed from center into 2 cups of small, soft bread crumbs.
3. Combine crumbs with ground beef and remaining ingredients; mix thoroughly.
4. Fill the inside of loaf with beef mixture. Place bread top back on the filled loaf. Secure top in place with 8 toothpicks. Wrap in foil, sealing tightly.
5. Place on cookie sheet in middle of the oven and bake for 1 hour and 30 minutes (add 10 to 15 minutes for high altitude). To serve, remove foil and toothpicks, slice into 1-1/2 inch slices.

Nutritional information per 3-ounce serving: 430 calories; 24 grams fat; 11.2 grams saturated fat; and 100 milligrams cholesterol.

HEARTLAND BARBECUED

PORK CHOPS (Serves 4)

- 4 pork chops, bone-in or boneless, about 1-1/4 inch thick
- 1/2 cup bottled barbecue sauce
- 1/3 cup honey
- 1 tablespoon Worcestershire sauce
- 1 teaspoon prepared mustard
- Dash hot pepper sauce

For sauce, mix all ingredients except pork chops together in a small bowl. Place pork chops over direct heat above medium-hot coals.

Grill chops for about 4-5 minutes, until nicely browned on one side; turn and brush liberally with sauce. Grill for 4-5 minutes more; turn and brush with more sauce. Grill for a few minutes more, turning and brushing with sauce. Discard any leftover sauce. Serve chops immediately.

Nutrient information per serving: 371 calories; 332 milligrams sodium; 39 grams protein; 104 milligrams cholesterol; and 11 grams fat.

awning, loaded with extras, 15 months left on factory warranty, \$17,995. 918-689-3617.

Conserve Energy With Alcoa Siding

***CUT FUEL COSTS! *CUT HEATING COSTS! *CUT COOLING COSTS!**

Alcoa Steel & Vinyl Siding America's At Home With Alcoa

Yes! Energy savings over a short period will more than pay for the new siding investment in your home.

Does not absorb or retain moisture like wood.

Does not support combustion.

Stays beautiful wherever you live!

Retains beauty year in, year out.

Does not peel, flake, corrode or rust. Easy to clean—simply hose down.

Mars, scars, abrasions don't show. High impact-resistant.

White & 12 decorator colors. Never needs paint—durability built in not painted on.

Insulates against cold or heat.

Goes up easily over wood asbestos, stucco or masonry walls.

Protect your investment in your home! Improve its value!

Muffles outside noises, assures a quieter, more livable home.

Permanently protects & beautifies your home.

Resists damaging effects of acids, salt, water, sun, rain, oil, etc.

Maintenance free -- the BEST buy in today's home covering market!

Completely covers split, warped, faded or peeled outside walls.

Here are the names of just a few of your Farm Bureau neighbors who are enjoying the beauty & comfort of Alcoa Siding products. Feel free to check with them.
