

Bushels for Books

Providing accurate agriculture books to educate today's youth

The Oklahoma Farm Bureau Women's Leadership Committee has joined with the Oklahoma Farm Bureau Foundation for Agriculture to provide accurate agriculture books to schools across our state.

In order to be eligible for consideration, a pre-K to eighth-grade teacher from a school can submit an application OR a school librarian can submit an application for books that span multiple grade levels. All books are elementary-age-appropriate. All applicants will receive a book upon completion of form.

Applications are due June 15, 2023

The books will be selected by the Women's Leadership sub-committee and will be chosen from the American Farm Bureau Foundation for Agriculture's book database. They will cover various agriculture topics that are appropriate for the grade levels receiving the books. Winners will be contacted for delivery of books.

School: _____

Teacher's Name: _____

Grade Level(s): _____

Contact Phone Number: _____ Contact Email: _____

School Address: _____

Street

City

ZIP

Have you received books in the past?: _____

To be considered, answer all questions below.

Why do you feel the accurate agriculture books are needed for your school?

How do you plan to utilize the accurate agriculture books?

Do you currently work with any Agriculture in the Classroom Programs? Please explain.
